

Energy Packet

Monday's Homework

Read the packet about energy. Remember to read all the captions next to the pictures. After reading the packet complete the following questions and statements. Remember your answers should be in complete sentences and on lined paper.

1. What two things effect how much kinetic energy a moving object has?
2. Give an example of energy being used to make something change.
3. What is the difference between kinetic and potential energy?
4. Draw a picture of an object that has potential energy?
